

R2619P Design Change and Product Improvement

A design change has been applied to Ryco Cartridge Fuel Filter R2619P.

The Ryco R2619P follows an OE product supersession and the filter now includes a pre-filter ensuring comparable efficiency, life and flow ratings. The addition of the pre-filter ensures the removal of larger debris and increasing filter life.

R2619P SUITS

Make	Model	Series	Engine Type	Cyl	Litres	Engine Model	From	To
ISUZU	D-MAX	TF	TD	4	3.0	4JJ1-TCX	07 / 2012	../on

Note: R2724P should not be used as a substitute filter for these applications as it does not match required OE efficiency ratings for these applications.
