1: Open glove box, push each side of glove box (A & B) to release catches, glove box can then be rolled down to 180° position. Unclip trim panel (push / pull clips) (C) to reveal hidden screw.

2: Remove 5 screws & 2 hex head bolts from around glove box frame, gently pull glove box out until plug for glove box light is visible and disconnect. Remove glove box to expose cover for cabin filter. Remove cover to gain access to filter by pulling out.

3: Hold wires away from front of housing. Pull used filter out from housing and replace with new Ryco RCA104P filter and re-assemble all previously removed components.

4: Dispose of used filter correctly.
