Fitting Instructions for Ryco Cabin Filter RCA198c

BMW 1 Series (116i & 118i)

(Filter is located in engine bay beneath windscreen)

1. Using suitable Allen key undo the 6 screws and remove the cover.

2. Lift cover to open housing and remove used filter by unclipping from the top edge and pivot forward to remove from housing.

3. Locating pins

   Fit the new filter by locating the two pins on the bottom side of the filter frame into the housing, clip the top edge in place and refit the cover.

4. Replace housing lid

   Replace cover

   Dispose of used filter correctly

   Pull used filter from housing and replace with new filter, note direction of air flow.
