

RYCO FILTERS

FITTING INSTRUCTIONS FOR RYCO CABIN FILTER RCA296C.

HONDA ODYSSEY (RB3)

1. The cabin air filter is located behind the glove box compartment. To gain access to the cabin air filter it is required to be removed.
2. For better working space, slide the passenger seat all the way back. Open the glove box and look for the strut on the outer side of the glove box facing the door and unclip from the bottom section then press both top corner inwards to bypass the retaining lugs so the lid can be dropped completely.
3. Identify the cabin air filter housing and unclip the lid by pressing on both sides. Slide the old cabin filter out carefully to avoid any accumulated debris spreading around and clean the area.
4. Slide in the new filter making sure it faces to the correct air flow direction. Refit all components in reverse order.
