## Z981UA FUEL WATER SEPARATOR KIT

High Efficiency 4WD Fuel Filter Kit for flow rates up to 120 litres per hour

### PRODUCT SNAPSHOT

#### UNIVERSAL FUEL ASSEMBLY

**Interchangeable with:**  
P903316 Kit

**Micron Rating:**  
4 micron (nominal)

**Efficiency Rating:**  
99% @ 4 $\mu$

**Applications:**  
Ideal for 4WD CRD applications

Fuel water separator filters provide additional 'pre fuel filter' protection for standard fuel filters in diesel delivery systems. The finer micron rated high efficiency filter provides additional protection for the injectors and fuel pump.

#### Purpose

- Additional protection for diesel fuel delivery systems.
- Suitable for Diesel and Bio Diesel blends up to B20.
- Diesel fuel pump applications where fuel pump does not exceed 120 litres per hour.
- Acts as a pre filter for diesel fuel filtering water and particulates.
- Hard working 4WD's to protect common rail diesel (CRD) systems in particular, injectors becoming blocked.

#### Z981UA Kit Contents

Product Image	Qty	Description	Specifications
	1	Aluminium mounting plate	2 x 1/4" ports Working pressure: 100 psi
	1	Acrylic water drain bowl	Dimensions: OD 80mm, Height: 59mm
	2	Straight industrial hose tail	10 mm (3/8") x 1/4" NPT male straight fitting
	1	Right angle industrial hose tail	10 mm (3/8") x 1/4" NPT male right angle fitting
	2	Z981	OD: 77mm Length: 141mm 4 micron (nominal) 99% Efficiency

Note: kit items (excluding filters) are not available for separate sale.
