

PRODUCT DATA SHEET

Z982UA FUEL WATER SEPARATOR KIT

TRUCK Fuel Filter Kit for flow rates up to 360 litres per hour

PRODUCT SNAPSHOT

UNIVERSAL FUEL ASSEMBLY

Interchangeable with:

P903074 Kit

Micron Rating:

4 micron (nominal)

Efficiency Rating:

99% @ 4 μ

Applications:

Ideal for light to medium trucks

Fuel water separator filters provide additional 'pre fuel filter' protection for standard fuel filters in diesel delivery systems. The finer micron rated high efficiency filter provides additional protection for the injectors and fuel pump.

Purpose

- Additional protection for diesel fuel delivery systems.
- Suitable for Diesel and Bio Diesel blends up to B20.
- Diesel fuel pump applications where fuel pump does not exceed 360 litres per hour.
- Acts as a pre filter for diesel fuel filtering water and particulates.
- Hard working trucks to protect common rail diesel (CRD) systems in particular from injectors from becoming blocked.

Z982UA Kit Contents

Product Image	Qty	Description	Specifications
	1	Aluminium Head Assembly	2 x 1/2" ports Working pressure: 100 psi
	1	Acrylic water drain bowl	Dimensions: OD 80mm, Height: 59mm
	2	Straight industrial hose tail	10 mm (3/8") x 1/2" NPT male straight fitting
	2	Z982	OD: 96mm Length: 219mm 4 micron (nominal) 99% Efficiency

Note: kit items (excluding filters) are not available for separate sale.
